

PSE 188 Fully Automatic Strapping Machine

Motorised Belt Driven Table Top with SERVO Motor

Designed for various in-line applications.

The PSE 188 offers the versatility of different strap widths (5-15mm), a wide tension range and high speed strap cycle with efficient and quiet Servo motor.

Multiple functions are standard on machine.

Features:

- Motorised Belt Driven Table Top
- Looping Ejector
- Short Feeding Sensor
- Coil and Eject System
- Waist Auto Loading System
- Conveyor Speed Adjustable
- Upstream and Downstream Interlock
- Various Width Straps 5,6,9,12,15mm
- PLC Control with HMI Touch Screen Panel

Optional:

- Stainless Steel
- Various arch sizes

SPECIFICATION

MOTOR	Servo
SPEED (straps/min)	60+
STRAP WIDTH	5,6,9,12,15mm
TENSION RANGE (5,6mm)	3-30kgs
TENSION RANGE (9,12,15mm)	5-70kgs
STANDARD ARCH (W x H)	850 x 500mm
SEALING METHOD	Heating element
TABLE HEIGHT	805mm
POWER CONSUMPTION	1.2kW
POWER SUPPLY	240V 50/60Hz 1PH, 440V 50/60Hz 3PH
LAYOUT DIMENSION (L x W x H)	1565 x 580 x 1430mm
