

# PSE 44 Automatic Strapping Machine

## High Performance - SERVO Motor Driven

The PSE 44 is designed for various applications offering the versatility of different strap widths (5-15mm), a wide tension range and high speed strap speed with the efficient and quite SERVO motor. Multiple functions are standard on machine.

### Features:

- Looping Ejector
- Short Feeding Sensor
- Coil and Eject System
- Electronic Tension Control
- Waist Auto Loading System
- Various Width Straps 5,6,9,12,15mm
- High Speed Performance (over 60 straps/min)

### Optional:

- Top Press
- Stainless Steel
- Various arch sizes

SPECIFICATION	
MOTOR	Servo
SPEED (straps/min)	60+
STRAP WIDTH	5,6,9,12,15mm
TENSION RANGE (9,12,15mm)	5-70kgs
STANDARD ARCH (W x H)	650 x 500mm
SEALING METHOD	Heating element
TABLE HEIGHT	805mm
POWER CONSUMPTION	1.2kW
POWER SUPPLY	240V 50/60Hz 1PH, 440V 50/60Hz 3PH
LAYOUT DIMENSION (L x W x H)	1230 x 580 x 1430mm
